Project Work

Portfolio Website Link [🔗](#)

- Built a responsive portfolio website using HTML, CSS, and JavaScript to showcase my skills and projects with an Interactive user interface.
- Implemented features like smooth scrolling, dark mode toggle, and animated project cards to enhance user experience and engagement.
- Developed using VS Code, ensuring a clean code structure and easy updates while applying best practices in front-end development and UI/UX design.

Todo-App Link [🔗](#)

- Developed a To-Do App using HTML, CSS, and JavaScript, allowing users to add, delete, and mark tasks as completed.
- Integrated LocalStorage, ensuring tasks remain saved even after refreshing the page, making the app lightweight and efficient.
- Designed a clean, responsive UI with smooth transitions and user-friendly interactions, built using VS Code.
